## **Introduction**

NKC started their operation in 2002 with the business objective of providing total computing solution to IT marketing in Pakistan. What followed was mercurial rise in the use of computers in the 20thousand & NKC, grew from its humble beginnings to become one of the most trusted and recognized IT Companies in Pakistan.

Since the company's formation, people at the helm of management at NKC recognized that in order to maintain competitive presence in the market, the company must enjoy unblemished record at marketing its image as a trustworthy supplier. The company has striven to establish the human resource profile, which shared its commitment to brilliance in marketing its image as an IT Consultancy by conscientiously attempting to educate the customer.

Being one of the IT companies in Pakistan, the founding members of the company felt obligated to educate the customer on available technologies. Sometime it even resulted in lost opportunities, as customer needs did not always match the products carried by NKC. But short-term opportunities at "making a fast buck" have never figured in NKC's philosophy. The strong belief that company should market its people as individual with untarnished reputation has helped NKC to establish with technical expertise in term of HP, COMPAQ, EPSON, MICROSOFT, AVAYA, CLIPSAL, CISCO, LINKSYS, 3COM & INTEL etc., for which NKC have the certified engineers of those reputable companies.
